Fuel Card Program

An efficient and reliable method to lower operating costs on the road

Fuel Card Program

Carrying a T-Chek fuel card from Eagle Fleet Direct gives you quick and easy access to fuel, as well as other goods and services. You get real-time, point-of-sale reconciliation that takes into account any supplier negotiated discounts or special pricing structures. At the same time, your accounting, fuel tax, and other information systems are automatically updated. With a full range of reports at your disposal, you'll have the information you need to analyze purchase patterns, establish fuel networks, and make solid business decisions.

With Eagle Fleet Direct's Fuel Card Program from T-Chek, haulers of all sizes get the same advantages. Information can be custom built onto your cards to set product, volume, and dollar limits. Custom networks can also be created to control where fuel is purchased. You determine the limits and T-Chek enforces them for you.
