

# First Arrival®

Feed Supplement for the First 14 Days of Life

First Arrival® takes a three pronged approach to dealing with newborn calf health. It contains a source of direct fed microbials, select targeted proteins and a unique heated carbon source containing 280 different organic acids. It is fed for the first 14 days and mixes well in milk replacer, whole milk and colostrum.

This supplement is most effective when used as part of a structured calf raising program. The combination of targeted proteins, microencapsulated lactic acid forming bacteria, and organic acids can aid in addressing the pathogens that may cause malnutrition and scours in the neonatal calf. First Arrival® progressively moves the calf towards its full genetic potential and improves imbalances caused by early stress.

- ✓ **Contains NO blood serum sourced proteins**
- ✓ **Extremely digestible and gentle to a newborn developing gut**
- ✓ **Has been very effective in supporting the immune system for healthy calves**
- ✓ **Can aid in cases of extreme malnutrition caused by transportation, feed transition and environmental contamination**
- ✓ **Gray appearance results in an indicator of passage**

## Guaranteed Analysis

Total Lactic Acid Producing Bacteria  $4 \times 10^9$  CFU per gram  
Bacillus subtilis, Enterococcus faecium, Lactobacillus acidophilus, Bifidobacterium longum,  
Bifidobacterium thermophilum

## Ingredients

Dried egg yolk solids, Dried whey, Charred root fermentation extract, Dextrose, Dried Bacillus subtilis fermentation product, Dried Enterococcus faecium fermentation product, Dried Lactobacillus acidophilus fermentation product, Dried Bifidobacterium longum fermentation product, Dried Bifidobacterium thermophilum fermentation product, Sodium aluminosilicates

## Feeding Directions

During the first 2 days of life, feed 1 oz. per feeding for a total of 2 oz. daily, mixed with milk replacer, whole milk or colostrum and fed at 101°-102°F temperature to aid feed absorption. During days 3-14, give ½ oz. per feeding for a total of 1 oz. daily. One ounce (1 oz.) scoop enclosed

## Package Sizes

5 lbs • 25 lbs • 50 lbs
